

ENRICHMENT CLASSES 2026-2027

For the upcoming 2026-27 school year, we will be offering nine different enrichment classes that your children can register for. The classes will be held from 11:30 AM-2:00 PM and include lunch. This is a wonderful opportunity for your children to experience some new and exciting activities with their peers. Below is a list of the classes being offered as well as a brief description of each class. We hope that you will consider one or all of these classes for your children.

Writing Readiness & Prewriting Readiness In these classes, children will have fun using fine motor skills, letter loving games, prewriting magic with tracing, shapes and patterns. Our playful, hands-on approach keeps kids moving, laughing and learning every step of the way. Whether they're just beginning to write, mastering their name or drawing treasure maps, they're getting ready to write the future!

STEM In this class, children will learn about the world around them through science. Your children will participate in a variety of science experiments and use some of the key components of the scientific method (observe, predict, and analyze). Also included will be a variety of activities that promote scientific knowledge as well as scientific exploration in a variety of forms. Young Einsteins come be a part of this class.

Kids in the Kitchen This class will be inspired by popular children's books. The books will encourage discussion and activities that include recipes, fun healthy foods, and food categories. The young chefs will experience how preparing snacks can build their confidence and their love for a variety of foods. Calling all future Iron Chefs to join this class!

Book Club This class is where stories come to life and imaginations take flight! Children will dive into magical lands, talk to animals, or go on pirate or space adventures. This class combines read-aloud magic and story time adventures with crafts and activities for early literacy fun. Children just don't read books; they live them one giggle at a time!

Spanish In this class children will be exposed to the Spanish language through verbal repetition, games, activities, and crafts. There will be many focuses throughout the year that include greetings, colors, numbers, animals, holidays, and the world around us. Come join this class and get a jump on learning Español.

Health and Fitness This class creates a fun way for preschoolers to move, grove and grow strong. Children will stretch, jump, and tumble with playful games, learn nutrition through classroom activities and have mindful moments including yoga and breathing techniques. This class isn't just for exercise – it's a whole body adventure.

Let's Get Moving This class will include a variety of gross motor activities that the children will be exposed to and practice through games in the rec room. The use of music and a variety of equipment will make the day fun for all. Skills such as locomotor movements, body awareness, spatial awareness, balance, and ball skills including rolling, throwing, catching, bouncing, and kicking, will be taught and practiced while using good sportsmanship and having lots of FUN. Join this class and LET'S GET MOVING!

Young Artists This class is designed to bring out the artist in children through drawing, painting, sculpture, and the use of mixed media. Your child will be exposed to art in its many different forms. The use of different mediums which may include tempera paint, watercolors, chalk, colored pencils, and markers as a way to express one's inner artist will be explored. Your child will use a variety of different implements and materials to create 2D and 3D masterpieces. Picasso holds nothing over on our young artists!
